WORK EXPERIENCE

Technical Program Management Intern

CM Telematics | Cambridge, MA | May 2019 - Present

Conducted 10+ customer and stakeholder interviews to identify and present clear gaps and opportunities in data science modelling workflows to senior stakeholders
Analyzed customer feedback and user behavior reports using SQL to drive new data visualization features from ideation to launch, achieving key company Q3 OKRs
Led mobile UI onboarding revamp strategy across Android and iOS teams

Product Design Intern

Nulogy | Toronto, ON | Sept - Dec 2018

Designed end-to-end channel management experiences for high-profile CPG clients to perform inventory management and forecasting, resulting in critical strategy launch
Conducted user research and collaborated with internal stakeholders to deliver consistent design and development guidelines through a design system
Optimized navigation flow through A/B testing and user testing

Product Management Intern

Tulip Retail | Toronto, ON | Jan - Apr 2018

Maintained feature ownership and co-ordinated with design, engineering, and QA teams on key iOS app module responsible for 60% of company revenue
Delivered 5+ time-boxed features for major luxury retailer, which created a week-to-week 18% sales lift in pilot stores due to increased customer retention and purchasing
Streamlined tracking of complex client configurations, providing never-seen-before insights into feature usage and product market fit

Hardware Research Assistant

Harvard University | Cambridge, MA | May - Aug 2017

Designed and characterized nano-optic lenses in simulation software using C++
Analyzed imaging results in MATLAB, delivering key data and figures as contributing author to 2+ publications
